

Darlene Baker

What is your gender?

Female

Age?

50

County (or Counties) of Primary Residence?

King

Residential setting:

Suburban

Do you identify yourself as any of the following?

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf hunting

Land management

Habitat connectivity

Information and education

Goals objectives strategies and tasks

Please list other topics here. The next page provides space for general comments on the scope of the plan.

Protections for Recovery and Expansion of Wolves

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

As a resident of Washington state, I have not been pleased with the WDFW's actions in dealing with wolves. The WDFW has killed countless wolves, disrupted packs, gunned down female wolves with young cubs. Instead of striking a balance with wolves and livestock owners and looking for solutions so that the two can co-exist, the WDFW has simply decided to kill the wolves and seems to always side with ranchers.

I want a plan that recognizes that we as humans, and ranchers, are encroaching on wolf territory, that wolves have the right to live and survive and that we need to protect wolves so that they can play their part in the lifecycle, and so that future generations may know wild wolves.

I want more wolf protections, and no hunting of wolves.
