Environmentalist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf interactions with other species

Habitat connectivity

Information and education

Please list other topics here. The next page provides space for general comments on the scope of the plan.

let them be they are gentle and timid animals if not threatened

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

I think that we need to protect and preserve the species. They are not a problem or threat. To human beings or livestock. Therefore I disagree with controlled hunting. And population control of the species. Also think that the wolf should be put back on the Endangered species list.
