WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf-livestock conflicts

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I would like to see that all comments on non lethal procedures are looked at seriously and not thrown to the wind by ranchers before giving them a try. Compromising in wolf management should be the main word and everyone needs to compromise - in some situations there is not a black or white decision.
