Wolf conservation and monitoring

Wolf hunting

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Something needs to be done ! This state has turned into a predator pit! Areas in 101 unit the deer numbers in last 5 years are half of what they were. 105 is decimated we are all tired of all the excuses to why ungulate numbers are down . The common theme is now wolves. We never talked about deer numbers and how bad they are until wolves were reintroduced. It's an atrocity what has happened to deer and elk in this state .
