

Tamarie Prewitt

**What is your gender?**

Female

**Age?**

49

**County (or Counties) of Primary Residence?**

Saneeds county Montana

I have a apartment in Spokane as well

**Residential setting:**

Rural

**Do you identify yourself as any of the following?**

Environmentalist

Hunter

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf hunting

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

Costs and funding priorities

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

I am hoping the state of Washington stops to look at the future of all of our lives. Our native species especially top apex predators are needed to bring our forests back to being healthy. The livestock does not belong there and happens to be one of the major factors in global warming. I am a proud hunter/fishergal not a vegan trying to eliminate meat eating. I am however against large scale factory farming. When the wolves come threw my property I feel blessed by their presence. Is is time to stop the fear that they hurt humans. It is time to make America healthy again, it's people and land. These are everyone's public lands full of cow poo. We pick up our dogs poo, ranchers could care less about the health of anything but their cows. Thank you for allowing us public land owners to speak for our wildlands,wildlife.

Sincerely

Tamarie
