

Bob Loomis

**What is your gender?**

Male

**Age?**

57

**County (or Counties) of Primary Residence?**

Chelan

**Residential setting:**

Rural

**Do you identify yourself as any of the following?**

Hunter

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf-livestock conflicts

Wolf interactions with other species

Wolf hunting

Translocation

Costs and funding priorities

Economic analysis

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

The amount of dollars spent on scientific studies, monitoring, management, goals, objectives etc...on this wolf program is ludicrous. These are our tax dollars, license dollars etc...being spent frivolously! Let's utilize our dollars on better big game management, fisheries management etc....something that is actually making money for the state so that we have more opportunities with big game and fisheries. If we want the program to exist let the \$\$ come from the whale watchers, environmentalists, eco friendly individuals that want to see a wolf in the wild. There is a reason that the wolves were depleted with the expansion of mankind in the western states.
