WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf management areas

Wolf-livestock conflicts

Wolf interactions with other species

Wolf-human interactions

Wolf hunting

Goals, objectives, strategies, and tasks

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I don't think you even have a plan. The plan was to restore wolf populations to the wilderness so it would be natural the way nature meant it to be. Then you allow ranchers to lease the same land for cattle. Cattle not only do not belong in the wilderness but the money that the ranchers are paying cannot go towards something that they're actually defeating In Their actions. You're setting the Wolves up to fail when they're in the same place they should be all along. Cattle does not belong in the wilderness!
