What is your gender?

Female

Age?

62

County (or Counties) of Primary Residence?

Spokane

Residential setting:

Other

On the rural edge of suburban.

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf interactions with other species

Wolf-human interactions

Translocation

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Please list other topics here. The next page provides space for general comments on the scope of the plan.

How killing individual wolves affects the remaining pack members.

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolves are an integral part of a healthy ecosystem, benefitting it in many ways. Less erosion of stream beds and healthier prey herds are two examples. Government subsidizing cattle grazing on federal land by killing off wolves is a poor management strategy. The wolves deserve to be here. They are important to our heritage as Americans and to the environment.
