

Douglas Moore

**What is your gender?**

Male

**Age?**

62

**County (or Counties) of Primary Residence?**

Pierce

**Residential setting:**

Urban

**Do you identify yourself as any of the following?**

Hunter

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf management areas

Wolf-livestock conflicts

Wolf interactions with other species

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

The introduction of wolves into the state is eliminating other wildlife, elk, deer, etc along with cattle. I have been hunting the blue mountains for years and with the reintroduction of wolves the herds are showing a dramatic decline to the point of elimination. The elk that remain have been pushed out of their normal range to avoid the destruction caused by wolves. If the state insists on introducing wolves please locate them in Enumclaw, the Olympics and the Capitol Forest as well so the legislators and leaders from Western Washington can see firsthand the damage they actually cause.
