

Georgene McKinney

**What is your gender?**

Female

**Age?**

80

**County (or Counties) of Primary Residence?**

Shasta County

**Residential setting:**

Urban

**Do you identify yourself as any of the following?**

Environmentalist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf management areas

Wolf-livestock conflicts

Wolf-human interactions

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Wolves need to be in our wildlife...they are important to our Ecosystems...If all of these wolves are killed, our Ecosystems will crumble, then we will all be threatened! Your State killed a lot of these wolves, many of them for the sole purpose of satisfaction for one (1) rancher who wanted revenge...while he also got paid for the cattle he lost...and he didn't finish the program of using a rider around his ranch to help prevent loss..You know, they have the same right as we do to live...and I will never understand why these cattle are put on public lands right where the wolves live, their habitat, and raise their families...all we ask is for a chance for these wolves to live in their own habitat...just stop killing them...it's not right!!
