

Halette Salazar

**What is your gender?**

Female

**Age?**

68

**County (or Counties) of Primary Residence?**

Kitsap

**Residential setting:**

Rural

**Do you identify yourself as any of the following?**

Environmentalist

Livestock Producer

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf hunting

Habitat connectivity

Information and education

Research

Goals objectives strategies and tasks

Please list other topics here. The next page provides space for general comments on the scope of the plan.

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

The wolves are play an important part of our ecosystem. Studies done in Yellowstone show that the natural balance, flora and fauna all benefited from there return. They strengthen herds and cull the weak and the old. We need to live in piece with these magnificent creatures not extinguish them. There should be enough space for both.
