Land management

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolves should not have been introduced to the PNW as they are depleting the Deer & Elk herds. Taxpayers are flipping the bill to pay farmers for livestock damage. There are no Bison for the Wolves to prey on. Plant wolves on the West side of the Cascades where the wolf lovers live & let the wolves prey on their pets. There should be an open season on wolves like there is on Coyotes.
