**What is your gender?**

Male

**Age?**

68

**County (or Counties) of Primary Residence?**

Jefferson

**Residential setting:**

Rural

**Do you identify yourself as any of the following?**

Environmentalist

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Translocation

Habitat connectivity

Information and education

Research

Reporting and evaluation

Goals, objectives, strategies, and tasks

Costs and funding priorities

Please list other topics here. The next page provides space for general comments on the scope of the plan.

Protecting wolves from WDFW killing spree

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

Please do all you can to protect wolves in Washington. They deserve to be on the landscape, and help keep the "balance" in Nature. The Tropic Cascade effect demonstrates that wolves provide essential ecological "services" in keeping the predator-prey balance maintained and allowing many other plant and animal species to benefit from having this apex predator on the landscape. Do NOT keep on your wolf killing spree -- livestock, particularly on public lands should not be given priority over wild animals like wolves.
