Do you identify yourself as any of the following?

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf hunting

Habitat connectivity

Information and education

Research

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Livestock grazing on public land is not a right. It is a permitted use with well documented negative environmental impacts....that fact is undisputable. If livestock grazing is in conflict with other resources it should be stopped.

Hunting wolves just to kill them is a moral outrage.
