What is your gender?

Female

Age?

65

County (or Counties) of Primary Residence?

Jefferson

Residential setting:

Other

outskirts of small town

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf interactions with other species

Land management

Habitat connectivity

Information and education

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Here is the question that I wanted asked: "Would you rather see cattle on our public lands/forests? Or the creatures who are supposed to live there?" If there were no cattle, and the subsidized ranchers complaining, we would not need to "control" wolves, horses, elk. Get those blankety-blank cattle off MY public lands. Make room for the creatures who are supposed to be there, who have nowhere else to go. I want my grandchildren to have the chance to see a wolf flit by in the twilight. Don't you? Protect wild creatures, not "foreign" cattle.
