Suburban

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-ungulate interactions

Wolf interactions with other species

Wolf-human interactions

Wolf hunting

Habitat connectivity

Information and education

Research

Reporting and evaluation

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Livestock belongs on private land with non lethal interventions ongoing. When I visit I don't want livestock in public and federal lands. I can see them without traveling, and on private property. Wilderness is for wild animals. Anyone who does not like wild animals should not live in wilderness. Wolves are a keystone species and killing them has trickle down effects. As a tax payer and a concerned American citizen I don't want tax dollars used to kill wolves. I don't want ranchers reimbursed for losses except on tax forms. If ranchers lose animals while on public lands it is based on their decision therefore a cost of doing business. I don't want livestock on federal lands.
