

Alex Pospical

What is your gender?

Male

Age?

48

County (or Counties) of Primary Residence?

Benton

Residential setting:

Urban

Do you identify yourself as any of the following?

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf interactions with other species

Wolf-human interactions

Wolf hunting

Reporting and evaluation

Goals objectives strategies and tasks

Costs and funding priorities

Economic analysis

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolves need to be managed like any other predatory species in our confined ecosystems. The lack of science based management is destroying the ungulate populations in most western states. 100+ years of conservation efforts are being destroyed and I believe the Fish and Wildlife departments in these states and the environmental activist groups driving their lack of action should be held criminally culpable.
