

Susan Crampton

What is your gender?

Female

Age?

72

County (or Counties) of Primary Residence?

Okanogan

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf interactions with other species

Wolf-human interactions

Wolf hunting

Land management

Habitat connectivity

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

Costs and funding priorities

Economic analysis

Please list other topics here. The next page provides space for general comments on the scope of the plan.

Wolf-cattle interactions

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

The plan should look at ongoing recovery, adapting to what has been learned in the recent years since wolves have returned to Washington State, not just ending protection of wolves and leaving wolves on their own. The issue of wolves and cattle definitely needs address. The wolf and cattle issue has had resolution where cattle ranchers take responsibility, use good sense, and are honest. Promoting further rancher cooperation and responsibility is needed. Range riders are effective and needed.
