

Normand Andrew

What is your gender?

Male

Age?

31

County (or Counties) of Primary Residence?

Skagit

Residential setting:

Urban

Do you identify yourself as any of the following?

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf-livestock conflicts

Wolf-human interactions

Wolf hunting

Costs and funding priorities

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Bringing back wolves was the dumbest thing Washington could have done. Too many conflicts have arisen over the recent years. Washington already has too many predators. Billions of taxpayer funds have been wasted bringing back wolves and studying them. The only benefits wolves bring is a balance to the ecosystem. If you want to bring balance to the ecosystem then let hunters take more grazing wildlife. I guarantee you if hunters started stealing ranchers' cattle they would be hunted down and prosecuted. Not given rights of protection and left to freely do as they will.
