**What is your gender?**

Female

**Age?**

72

**County (or Counties) of Primary Residence?**

San Juan Co. WA

**Residential setting:**

Rural

**Do you identify yourself as any of the following?**

Environmentalist

Outdoor Recreationist

**WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.**

**Please review this list and add other topics, or items that fit under these headings.**

**Please check the topics you view as most important.**

Wolf conservation and monitoring

Wolf classification/status

Wolf-human interactions

Habitat connectivity

Research

**Do you have general comments about the scope of Washington's updated wolf conservation and management plan?**

We must conserve the wolves. They are the basis of balance in nature. Without them the environment deteriorates. The herds need to be moved off public land.

If a wolf is found to have killed a head of cattle we should pay the rancher for it and move his herd to his own property and not have them grazing on federal property.
