

Clayton Vining

What is your gender?

Male

Age?

25

County (or Counties) of Primary Residence?

Stevens

Residential setting:

Rural

Do you identify yourself as any of the following?

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf classification/status

Wolf management areas

Wolf-livestock conflicts

Wolf-ungulate interactions

Wolf-human interactions

Wolf hunting

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

We here in Northeast Washington have been suffering for years now not only because of the wolves but just predator populations in general. Our predator populations are not be managed and anyone that knows anything can see that in our ungulate herds. Wolves need to be managed just as any other game animal and it's time for that to happen. Environmentalists and pro-wolf activists will always argue that no wolf shall ever be shot, but how can we treat one animal any different than any other game animal? WE NEED MANAGEMENT!!
