Reporting and evaluation

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

The wolves in the area where I hunt are killing off the deer and coming to within 30 feet of farm out buildings and to within 60 yards of inhabited homes . I found 2 wolf kills of buck white tail deer , both two days apart . both less than a quarter of a mile from the farm house . I have seen a pack of 4 wolves traveling through wheat fields at mid day ! the 2 wolf kills I found while hunting were a 4X4 white tail and a 5X 4 white tail buck . this area is above Starbuck , Washington . Wolves are not vegetarians ! The wolf kills were no more than 6-8 hours old when I found them .
