

Josh Gray

What is your gender?

Male

Age?

37

County (or Counties) of Primary Residence?

Spokane

Residential setting:

Rural

Do you identify yourself as any of the following?

Hunter

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf management areas

Wolf-livestock conflicts

Wolf interactions with other species

Wolf-human interactions

Wolf hunting

Reporting and evaluation

Goals objectives strategies and tasks

Please list other topics here. The next page provides space for general comments on the scope of the plan.

Wolf management - Types (i.e. trapping, hunting, etc)

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I feel very strong that the population of wolves in Washington state is growing rapidly and the management plan seems to be moving at a much slower pace. While we continue to see a serious impact on the growth and sustainability of other big game animal herd's. I feel this plan needs to incorporate management of other predator species (bears, cougars, bobcats) as well.
