

Clarence Lupo

What is your gender?

Male

Age?

57

County (or Counties) of Primary Residence?

Lewis

Residential setting:

Rural

Do you identify yourself as any of the following?

Environmentalist

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf classification/status

Wolf-livestock conflicts

Wolf-ungulate interactions

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

If their numbers are allowed to grow, then the already stressed deer / elk populations are going to get hit very hard. Our deer numbers are still down from Hair Loss Syndrome and the Hoof Rot plague continues to decimate our elk herds. Add another apex predator to stress the elk and deer 24/7 and you have the recipe to destroy our environment in the name of introducing a long absent predator. I can't think of worse management than that.
