Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

We need to open a season, the sportsman in this state pay for a big portion and fish and game never want to go with what we want, we don't want wolfs here, why lay money to help our elk and deer population than allow the wolfs to destroy all out hard work. We see Idaho's issue with wolfs why do we want that, the sportsman don't wish for once we could have a say and it actually be listened to
