Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

DO NOT ALLOW THE EXTINCTION OF ANOTHER ANIMAL SPECIES. These animals have a reason to be here. Every ecosystem connects, every animal kingdom connects. You start making more and more animals extinct the more other animals will become over populated. Everything has a balance and when you take out of the food chain the other animals start to over populated or start coming into human populated areas for food. KEEP THE BALANCE OF SPECIES KEEP THE ANIMALS SAFE
