

John Hix

What is your gender?

Male

Age?

72

Residential setting:

Rural

Do you identify yourself as any of the following?

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf-livestock conflicts

Wolf interactions with other species

Information and education

Research

Reporting and evaluation

Goals objectives strategies and tasks

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolves are an interictal part of the ecosystem, and we need to realize that by upsetting this balance, we are putting everything out of balance. At this time, it is all about big business and the almighty dollar. Wipe out the wolf population, then it will be the mountain lions....then bears. Once gone, they are gone forever... Cattle ranchers move in to THER home....and know that these are wolf areas. Deprivations occur, and this gives them an excuse to demand the KILLING of these beautiful animals...Very sad, and not acceptable. Visit a Wolf Sanctuary, and learn what magnificent animals they really are....
