Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Apart from the fact that I am a wolf defender, my concern is with the McIrvine family and their decision to destroy as many packs in their area while not using any deterrent methods. The fact that WDFW gives out kill orders at the whim of this family is deplorable and shows that this department is participating in the effort to eradicate wolves in their historical territories. Families that are determined to destroy packs should be reviewed for the number of times and number of wolves killed. Allowing ranchers to direct this department is unethical and smacks of collusion.
