What is your gender?

Female

Age?

65

County (or Counties) of Primary Residence?

Whitman

Residential setting:

Urban

Do you identify yourself as any of the following?

Outdoor Recreationist

WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf management areas

Wolf hunting

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

I am appalled that the only response to cattle killing is killing one or a whole pack of wolves. Stop killing wolves. The cattle people are grazing their cattle on public lands on which wolves live - that is a risk the cattle people take for grazing on my tax paid-for land. I do not want wolves killed at all. The state reimburses cattle people for cattle deaths, and for heaven's sake there are so few deaths of cattle - it's nothing. I know it's money to the cattle people but they get reimbursed and even if they didn't, it's a very small number of cattle killed by wolves! Also, that's the risk they take. Please STOP killing wolves. It's a barbaric practice and it should be banned.
