WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf classification/status

Wolf-human interactions

Information and education

Research

Reporting and evaluation

Costs and funding priorities

Do you have general comments about the scope of Washington's updated wolf conservation and management plan?

Wolves have a purpose. We shouldn't be killing them or stripping them of endangered species status because they have been reoperated a little. They still need protection from trophy hunters. They still need protection from people in general. If people need to protect their livestock better, get a better protection system.
