WDFW has identified a list of impact topics to include in the Plan/EIS. Impact topics are a means of organizing the discussion of issues and analysis of impacts. Impact topics can be thought of as chapter or section headings in the Plan/EIS.

Please review this list and add other topics, or items that fit under these headings.

Please check the topics you view as most important.

Wolf conservation and monitoring

Wolf-livestock conflicts

Land management

Habitat connectivity

Please list other topics here. The next page provides space for general comments on the scope of the plan.

I feel it is time to re negotiate the land use agreements between ranchers and the use of Public Lands. It may be time to put a freeze on section, plots designated grazing where predation has occurred. Ranchers are pushing their cattle farther and farther into wolf territory. Then asking the Government to kill the predator. The ranchers should be able to insure their cattle for loss or take a right off of a loss on their taxes. Unless they are not a qualified business entity.
