**Subject:** Support adding Movi to reportable disease list  
**Date:** Friday, October 30, 2020 4:04:17 PM

---

To DEC;

I have a deep respect for Alaska's wild sheep and wish to protect them deadly the disease Movi which has caused epizootic die off of North American wild sheep when in contact with domestic sheep and goats. I support testing of all domestic sheep and goats prior to importing to Alaska through an AAVLD accredited lab with same day reporting adding Movi to the Reportable Disease list.

Respectfully;  
Robert Cassell
