Mrs. Miller:

I will make this short and to the point for your consideration.

Our business...Bush Alaska Expeditions....we are directly involved with Alaska wilderness, environment and our responsibility as a caretaker for this incredible state.....

Please support all efforts in regard to this dreaded disease.."MOVI" which can wipe out our sheep, goat and Musk-ox populations because they have no immunity to this disease that can be brought into Alaska from "outside". Please support all efforts to make sure all...ALL domestic sheep and goats are tested for this disease prior to entry into Alaska....this would be like sheep, goats and musk-ox contracting Covid.

Thank you

Wayne Hall
