**Subject:** Proposed Regulation for testing sheep/goats  
**Date:** Monday, October 5, 2020 3:14:20 AM

---

Hi Shannon,

I live in NC and love to sheep hunt in AK, although I've only had the ability to do it once a few years ago (but plan to again soon). I want very much for myself and my children to be able to hunt and witness the sheep and goats when we come to Alaska in future years. I am in support of the new proposed regulation and testing all domestic sheep and goats prior to import into Alaska through accredited diagnostic laboratories. I also support adding Movi to the reportable disease list.

Thank you for your service,

Jeff Taylor
