Subject: ANIMAL HEALTH (18 AAC 36): PROPOSED REVISIONS TO ANIMAL CARE, ANIMAL IMPORTATION, AND DISEASE CONTROL
Date: Thursday, October 29, 2020 6:45:13 PM

Hello,

My name is Michael Barner and I'm a born, raised and lifelong Alaskan resident for 57 years. I'm married to Marina Barner who is a born, raised and lifelong Alaskan Native from the Bristol Bay Region.

In regards to our wildlife resources we MUST protect ALL of our wildlife natural resources, but our sheep, goats and muskoxen are in danger right now and we cannot let MOVI take over and destroy this unreplaceable natural resource and others that may follow if this is not controlled.

- My wife and I support Movi testing of **all domestic** sheep and goats regardless of age prior to import into Alaska
- My wife and I support Movi testing through **AAVLD accredited diagnostic laboratories**
- My wife and I support **adding Movi to the Reportable Disease List and requiring same-day reporting**

Regards,
Michael & Marina Barner
