

John bunten

Cottage foods needs no caps.

Overregulation by nonelected officials with dubious credentials, telling us of the hazards of..

Lemonaid, homebaked bread, cupcakes, fried dough, even coffee, come on!!

State law says, dont serve adulterated food, and dont adulterate food. Two laws, but we have 500pp regulations for(if you include federal).

Food safety.

Give us a chance to feed our own people, with a bit of credit that we could do it without government in our kitchens.

Thank you, beth
