

Christine Roza

This soil remediation site is a bad idea to place in a residential area. There has been no notices at all to the public, the residents of Nikiski, about this plan. This has been in the works since March of 2021, at least. We have tried to talk to mayor of Kenai Peninsula Borough, Govenor Dunleavy, or Dan Sullivan. They will not call back. I have spoken to others in our government, the representatives, and have had no response yet. This whole thing needs to go to the paper, radio, word of mouth. I am very against this whole thing being dumped in our lap, with so little time to even know about it, and seemingly being made to just accept the decision of a few people, of something that is going to affect me, my family, & my community, for years to come. This seems to have been a big secret, and done at a time of year when everyone is very busy and their minds are not into looking into things out of place in the community.
