

## Amy Kearns

Request signature and certification of the annual affirmation and annual operating reports by the responsible official within the Air Online Services (AOS), Permittee Portal to be an option rather than a requirement.

Request submittal of signed and certified reports via DEC.AQ.Airreports@alaska.gov email address remain an option. Propose ADEC provide the additional option for permittees to upload signed and certified reports into their AOS Permittee Portal account directly as an alternative. This additional, alternative option provides maximum flexibility on the part of the permittee, achieves the same objective for electronic reporting, and removes some of the burden off of ADEC with respect to maintaining electronic records.
