2.	ADNR	SAIL	A8.1.13	A8-15 of 62	Alaska Department of Natural Resources <i>Please update the first bullet text</i> <b>Temporary Land Use Permit</b> Excluding those lands conveyed or withdrawn, ADNR manages most shorelands below ordinary high water. Spills impacting ADNR-managed land call for notification, consultation, and coordination with ADNR. Certain response activities on state land may require permitting from ADNR. Such activities include those that go beyond uses that are Generally Allowed, e.g., anchoring a response vessel in the same location for more than 14 days or using heavy equipment on state land. To	Standard DNR requirements
