- 2. In section 9710 - Relevant Statute/Regulations/Authorities List on page 379, revise the 21,22, and 23 rows to read as follows:**

NMFS Alaska Region	https://www.fisheries.noaa.gov/about/alaska-regional-office
Essential Fish Habitat, Info & Maps	https://www.fisheries.noaa.gov/alaska/habitat-conservation/essential-fish-habitat-efh-alaska
Marine Mammal Info	https://www.fisheries.noaa.gov/region/alaska#protected-marine-life

- 3. In section 4640.4.1 - Habitat Types, 2. Essential Fish Habitat revise the Descriptions section, on Page 138 to read as follows:**

Descriptions

EFH text descriptions are the legal definition for EFH and serve as the "basis" for effect determinations. EFH text describes the physical and biological environment and the location of EFH for each species by life history stage, if known. Species profiles for Prince William Sound and habitat assessment reports within the Fishery Management Plans provide information about each species, including any known habitat associations, reproductive traits, predator prey relationships, and species-specific literature citations.
