

No.	Point of Contact	Organization/ Commenter	Section #	Page #	Line #	Specific Wording Change	Rationale for Recommended Change	Notes
1	Jeanette Alas	ADF&G	2500	2-14	17	Recommend capitalizing "Resource Damage Assessment" in Natural Resource Damage Assessment and Restoration.	Capitalizing all words is common terminology.	
2	Jeanette Alas	ADF&G	2500	2-14	17	Recommend spelling out "Wildlife Protection Guidelines for Oil Spill Response in Alaska" in the REFERENCES AND TOOLS box.	The acronym for this document is not used in other REFERENCES AND TOOLS boxes throughout the plan.	
3	Jeanette Alas	ADF&G	2500	2-15	6	Correct "NRDRA" to "NRDAR"	Typo	
4	Jeanette Alas	ADF&G	3230.1	3-3	20	Correct spelling of "shoreline"	Typo	
5	Jeanette Alas	ADF&G	3410.3	3-11	10	Consider adding a REFERENCES AND TOOLS box at the beginning of this section.	This will allow users to easily access the Protocol for Using Unmanned Aircraft Systems during Oil Spill Response or Exercise.	
6	Jeanette Alas	ADF&G	3600	3-12	10	Consider using the wording "wildlife agencies" instead of "wildlife resource trustee agencies."	The WPG consistently uses "wildlife agencies" when referring to USFWS, NMFS, and ADF&G.	
7	Jeanette Alas	ADF&G	4210	4-2	1	Replace "Alaska State Geo-Spatial Data Clearinghouse" and "ASGDC" with an updated source in the REFERENCES AND TOOLS box.	ADNR retired the ASGDC.	Many of the resources in the ASGDC Description can be found in Arctic ERMA.
