Agency/Organization	DNR / Office of History and Archaeology and DMLW Statewide Abatement of Impaired Land
Cplan Reviewed	23-CP-3050

No.	Agency	Office	Document Section	Page No.	Specific Wording Change	Rationale
1.	ADNR	SAIL	1.2.2 OR 1.6.4	1-7 OR 1-21	<p>Please add the following text to one of the listed sections:</p> <p>Excluding those lands conveyed or withdrawn, the State of Alaska Department of Natural Resources (ADNR) manages most tidelands and submerged lands from the line of mean high tide and seaward to a line three nautical miles distant from the mean low tideline. In addition, ADNR manages most shorelands below ordinary high water, and over 100 million acres of uplands spread throughout the state. Spills impacting ADNR land call for notification, consultation, and coordination with ADNR. Certain response activities on state land may require permitting from ADNR. Such activities include those that go beyond uses that are Generally Allowed, e.g., anchoring a response vessel in the same location for more than 14 days or using heavy equipment on state land. To inquire about whether a spill is impacting state land or if response strategies require permitting, please contact ADNR at dnr.nro.spill@alaska.gov and (907) 451-2739.</p>	Standard requirements
2.	DNR	OHA	3.9.5	3-36	Change Title of Section 3.9.5 from	Broader Title

No.	Agency	Office	Document Section	Page No.	Specific Wording Change	Rationale
					<p><i>Historic Properties</i></p> <p>To</p> <p><i>Cultural Resources</i></p>	
3.	DNR	OHA	3.9.5	3-36	<p>Delete Paragraphs beginning “Prior to conducting...” and “If any historic, prehistoric...”</p> <p>Replace with:</p> <p>Caution should be used in any cleanup operation to not disturb or impact any historical or archaeological sites during response. Part Five of The Alaska Regional Contingency Plan outlines Federal On-Scene Coordinator responsibilities for protecting cultural resources and provides an expedited process for compliance with Section 106 of the National Historic Preservation Act during the emergency phase of a response. If there is no FOOSC, then RDO will coordinate with the State On Scene Coordinator (SOSC), the State Historic Preservation Officer (SHPO), and other appropriate land managers. If previously undiscovered artifacts or areas of historic, prehistoric, or archaeological importance are encountered, the DNR/Division of Parks and Outdoor Recreation/Office of History and Archaeology (907 269-8721) shall be notified.</p> <p>Background information: Additional information on the protection of historic properties during spill response may be found on the internet at: AK Implementation Guidelines January 2002</p>	Replace with standardized language, and update phone number for OHA.
