

# Northern Industrial Training, LLC

Good Afternoon,

My name is Patrick Rose and I live in Anchorage Alaska. My company and I have worked for years

training residence around the Tok area. We have provided skill-based training that leads to local jobs for all of the surrounding villages. I have reviewed the Reclamation & closure plan as well as the Waste Management plan for Manh Choh. I strongly encourage to approve it. The plan has amazing support locally and taken all considerations of the landowners and has sufficient financial assurance to cover any unanticipated event.

Kinross is an excellent mining company who has responsibly developed our natural resources in Alaska. The impact of this project will create a positive change for the local economy while changing

lives potential with new careers. They will be extremely active in these communities to create opportunities for high paying jobs, but more importantly help provide positive social benefits to everyone living in the area.

Thank you for reading my letter of support and I fully support the issuing of these permits.

Patrick Rose
