

## Bruce Cain

My name is Bruce Cain. I have lived in Alaska for 53 years. I have 7 children and 17 grandchildren. I am in support of Manh Choh project and believe it will provide needed minerals, jobs and economic benefits to our region and state.

It would be good if the rail road could be extended to Delta and maybe even Tok to support the ore haul. This is a good economic engine to support extending the railroad into the upper Tanana region.

That would also reduce a lot of heavy traffic on the highway and make a more efficient operation.

Thank you.

Bruce Cain. Glennallen Alaska.
