RE: POA-2023-00376 v1.0 Kodiak Harbor - Silver Bay Seafoods Kodiak

As the owner of the property bordering the proposed fill area, I am asking for an extension of the comment period allowed by ADEC.

Silver Bay Seafoods has made some assumptions in regard to encroachment and the tideland ownership itself.

My counsel, who submitted a comment has also asserted that I have rights to utilize the waters under Article 8, section 14 of the Alaska Constitution. I am keenly aware of the condition of the structure on my lot, however imagine that you purchased a waterfront property and shortly after the purchase your direct neighbors completely demolished everything around your new property. We had planned to develop and improve the property but have been on hold to see what Silver Bay was going to do. Now we see what they want is to take away our water access and erect a 2 story building directly in front of my dock/structure. Silver Bay has never consulted or even discussed their plan to completely block my access to the channel. They instead have not only made the minimal allowed time for comment but also have failed to even post signs near the proposed project.

I am entitled to provide a vigorous defense of my right to the water access. Please allow another 30 days for me to do so.

Regards,
Sully Sutherlin
