

Laurina Trent

I feel that water Gremlin. Needs to be shut down it has secretly filling the air & ground & water in. Over a ten mile radius. Killing people and Not being Held accountable. Numerous. People had to go through. Painful deaths. Because of this company!

It needs to be closed down immediately

And then cleaned up by the city as they are paid off by the company.

This is pathetic. Get it Closed Down I have been diagnosed with pancreatitis cancer 2 years ago
And now I have too suffer because of this Damn Company which is still in business very Angry
