17: Make this required. It shouldn't be too hard to do.

Add a state-led strategy that would change the law about taking food from caterers and other establishments to-go

We need more reuse strategies to be required.

There should definitely be a required strategy surrounding education and outreach about reuse and the options in your county to both get rid of and acquire goods sustainably.

22: Make this required.

23: Make this required.

Add a state-led strategy that would change the law around reusable to-go ware.

37: if this doesn't apply to cities with populations of less than 5,000 residents, all those cities should be required to have at least one drop off site, or at least one drop off site within a certain distance of each resident.

39: Make this required.

59: Make this required.

We need more deconstruction strategies to be required, since this is most of our waste.

I would recommend requiring 62, 63, and/or 64
