

Katherine Haun Schuring

I appreciate the comprehensive nature of the plan and the increased initiatives to make recycling more accessible to other groups.

I appreciate the goal to reduce food waste in commercial kitchens through reuse. Is there anyway to consider revising best buy dates for food in grocery stores?

I would appreciate if the MPCA would consider providing soft goods/clothing/towel recycling options. Or bringing programs like terracycle or Ridwell to citizens at discounted or free prices.

I would also appreciate if we could recycle black containers again. Our recycling went down because many takeout containers and other containers are black.

Thank you again for your work coming up with interesting and innovative ideas!
Katie
