

Sheree` Bochenek

i am an avid recycle person. Here are my suggestions:

1. Partner with Ridwell and begin recycling batteries, textiles, and MIXED plastics.
2. Charge at least 20 cents for a plastic bag, but reduce the bill by 40 cents if they don't need a bag, or bring their own.
3. So many people forget their bags in the car. Have a sign in the parking lot at stores saying-- "Don't forget your re-useable bag!"
4. Have an announced day when large items like tv's, tech cords,etc... would be picked up and recycled.

I could probably come up with more ideas, but this is a start! Good luck to you and your work!
