

## Randolph Pflueger

You are a government agency representing a link that signed a treaty with native Americans regarding their well being and provisions for living life for perpetuity. I can not comprehend how you can possibly try to set standards that destroy a vital food product to be able to perraneate let alone pollutes water surface or aquifers. What are guys thinking? Surely not thinking about six generations ahead of even your own children. Come on we must fulfill are word to others let along to ourselves.
